## National Terrorism Advisory System

# **SITUATION SUMMARY**

## **Cal OES Coastal Region Significant Activity**

### **Sink Hole with Gas Leak, Moraga, Santa Clara County**

- A sinkhole 15 feet deep and ten feet across opened at the intersection of Rheem Boulevard and Center Street near a shopping center.
- A traffic signal pole and surrounding asphalt at the intersection fell into the hole, rupturing a 4-inch PG&E gas line.
- Evacuation orders were in place for 1/4 mile around the sinkhole and gas leak. 250 people were evacuated from a business shopping area and 60 - 100 homes were asked to shelter-in-place with windows and doors closed.
- Cal OES LDO confirmed that all evacuation orders have been lifted.
- A large number of residences in the area have had their gas service interrupted due to the pipeline rupture.
- Per CUEA, PG&E has now completed all phases of their purge plan (clearing all lines of air before reintroducing gas), and has begun their relight program. As of 0015 hours this morning, PG&E has successfully addressed over 2000 customers (~83%); they have a few hundred customers that PG&E may need to revisit. They will have more than 100 personnel on site this morning.
- The city of Moraga proclaimed a local emergency due to this incident. There are no requests for state assistance.

### **Uvas Dam Water Flow, Morgan Hill, Santa Clara County**

- American Red Cross advised Cal OES Coastal Region that an evacuation shelter was expected to be established to house campers and residents that were evacuated from Thousand Trails campground and surrounding area, Morgan Hill, Santa Clara County.
- Shelter was established at Morgan Hill Presbyterian Church 16970 De Witt Avenue, Morgan Hill, Santa Clara County. [Overnight population: 29](#)
- Cal OES LDO confirmed that approximately 150-200 residents were placed under mandatory evacuations due to rising water levels of Uvas Creek. The area is a trailer park area with most permanent residences.
- Cal OES Coastal Region reports that Uvas Creek has experienced a rise in water levels due to water being released from Uvas Dam as a precautionary measure to relieve pressure on the dam [and to mitigate potential flash flooding](#).
- [Uvas Creek is receding, as of 2230 water is 4 feet below access bridge.](#)
- [Per the Santa Clara Valley Water District, water continues to spill through the engineered spillway at the dam. There is no damage to the dam. It is currently unknown when the reservoir will recede to 100% capacity.](#)

### **Landslide, Augusta Dr, Moraga, Contra Costa County**

- [A small landslide has damaged one home and rendered another home uninhabitable.](#)
- [The two families have self evacuated.](#)
- [East Bay Municipal Utilities District \(EBMUD\) is waiting for the ground to be drier before starting mitigation and restoration.](#)
- [No requests for assistance or unmet needs at this time.](#)

# **SITUATION SUMMARY**

## **Weather of Concern**

### **Northern California**

- There is no weather of concern for Northern California

### **Southern California**

- High surf will affect west facing beaches south of Point Conception through this afternoon and Central Coast beaches today and tonight.
- There will be a high risk of rip currents on all area beaches

## **River Forecasts**

**The following Rivers are currently projected to reach or are at Monitor Stage as of 0950 hours:**

### **Coastal Region**

- Eel River at Fernbridge (Humboldt County)

### **Inland Region:**

- Middle Fork Feather River at Portola (Plumas County)
- Sacramento River at Colusa Weir (Colusa County)
- Sacramento River at Colusa Bridge (Colusa County)
- Sacramento River at Tisdale Weir (Sutter County)
- Sacramento River at Fremont Weir (Sutter County)
- Yolo Bypass at Lisbon (Yolo County)
- Cosumnes River at Michigan Bar (Sacramento County)
- Sacramento River at Rio Vista (Solano County)
- Sacramento River at Moulton Weir (Colusa County)
- Mokelumne River at Bensons Ferry (Sacramento County)

## **Cal EOC Incident – 2014 Drought**

SOC / Inland REOC remains activated in support of 2014 Drought.

# WEATHER

## WEATHER SYNOPSIS BY REGION:

### **NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:**

#### **Medford Weather:**

A strong, moist, zonal upper jet remains over our area this morning. The resulting onshore flow will continue to produce showers over the coast, Umpqua, and into the cascades today. Snow is no longer much of a concern, but we could see another inch or two out of the showers today, mainly above 3000 feet and from Crater Lake northward. Elsewhere, the main remaining concern is the volume of water moving through the rivers from all the rain over the weekend.

#### **Eureka Weather:**

Building high pressure will bring warming temperatures and dry weather over the next few days. Rain chances will return this weekend and early next week as high pressure breaks down and allows upper level disturbances to impact the area.

#### **Reno Weather:**

High pressure building off the California coast will move slowly inland, bringing several days of dry weather and generally light winds with a steady warming trend through Saturday. The next chance for gusty winds and precipitation may arrive Sunday and Monday as low pressure approaches the Sierra.

#### **San Francisco Weather:**

Dry weather and a warming trend are in store for the area this week as high pressure builds over the West Coast. Current forecast models are suggesting some potential for rain by Sunday.

#### **Sacramento Weather:**

High pressure will result in warm and dry weather across Northern California this week. Next chance of precipitation will be early next week.

# WEATHER

## WEATHER SYNOPSIS BY REGION:

### **CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY:**

#### **Hanford Weather:**

Gusty winds will persist through the favored passes and canyons this morning as a disturbance exits the region. Otherwise the remainder of the week will see a ridge of high pressure build and bring dry and warmer weather.

### **SOUTHERN CALIFORNIA:**

#### **Los Angeles Weather:**

Gusty North winds will continue for parts of the area through mid-morning. A warming trend is expected through mid-week as high pressure builds aloft and offshore flow develops. Slight cooling is expected for the end of the week and the weekend as a weak trough approaches but temperatures will generally remain above normal into early next week.

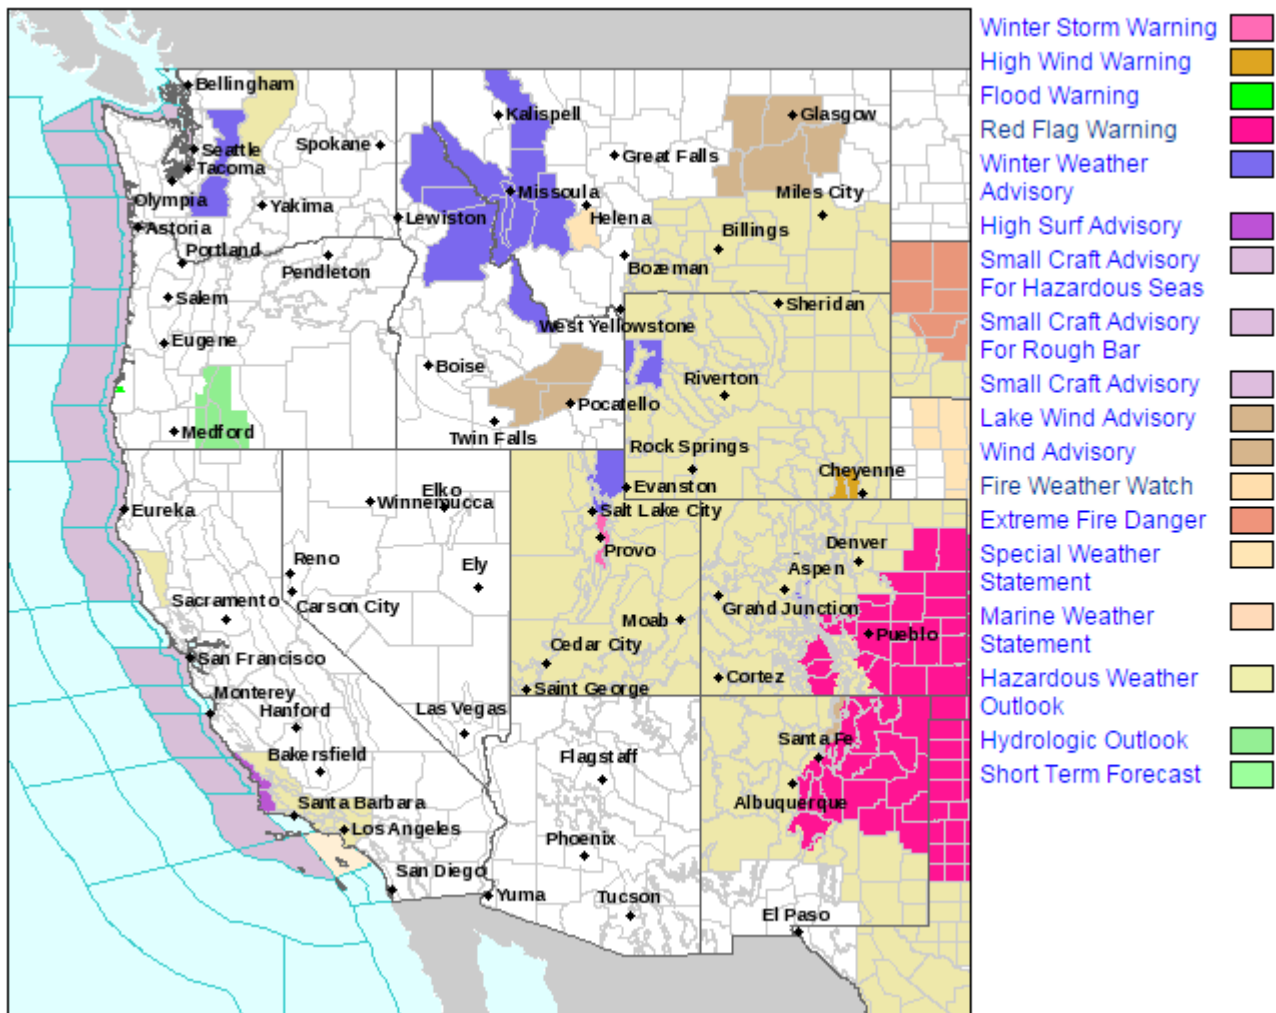

#### **Extreme Southwestern California including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:**

High pressure and weak offshore flow will create dry and warmer days for the remainder of the week with above average daytime temperatures inland. A shallow marine layer and increasing onshore flow may bring some cooling higher humidity and a return of marine clouds to coastal areas as early as Thursday.

#### **Southeast California Weather:**

Not much change in the weather pattern is expected this week. Afternoon temperatures will generally be in the 80s with overnight lows in the 50s for the lower deserts. Skies will be mostly clear with passing high clouds at times.

# CAL OES 2014 DROUGHT

## Cal EOC Incident – 2014 Drought

- The SOC is activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on the first Wednesday of each month.
- Cal OES Recovery/Individual Assistance finalized an updated 2015 version of the drought brochure of programs and services for individuals, businesses, farmers, and ranchers. It has been put on the Governor's Drought webpage. State agencies may put the following link to the brochure on their webpage <http://ca.gov/drought/pdf/Drought-Assistance-Brochure-2015.pdf>
- Cal OES Regions (Inland, Coastal, Southern) collective OA drought call is facilitated by the SOC and will be held once per month.

# **CAL OES 2014 DROUGHT**

## **Cal EOC Incident – 2014 Drought**

### **Local Emergency Proclamations:**

**A total of 61 local Emergency Proclamations have been received to date from city, county, and tribal governments, as well as special districts:**

- 27 Counties: Butte, Colusa, Calaveras, El Dorado, Fresno, Glenn, Inyo, Kern, Kings, Lake, Madera, Mariposa, Merced, Modoc, Plumas, San Bernardino, San Joaquin, San Luis Obispo, Santa Barbara, Shasta, Siskiyou, Sonoma, Stanislaus, Sutter, Trinity, Tulare, Tuolumne, and Yuba.
- 13 Cities: City of Live Oak (Sutter County), City of Lodi (San Joaquin County), City of Manteca (San Joaquin County), City of Montague (Siskiyou County), City of Porterville (Tulare County), City of Portola (Plumas County), City of Ripon (San Joaquin County), City of San Juan Bautista (San Benito County), City of Santa Barbara (Santa Barbara County), City of Rancho Cucamonga (San Bernardino County) and City of West Sacramento (Yolo County), City of Willits (Mendocino County), and City of Fort Bragg (Mendocino County).
- 9 Tribes: Cortina Indian Rancheria (Colusa County), Hoopa Valley Tribe (Humboldt County), Karuk Tribe (Siskiyou/Humboldt Counties), Kashia Band of Pomo Indians of the Stewarts Point Rancheria (Sonoma County), Picayune Rancheria of Chukchansi Indians (Madera County) Sherwood Valley Pomo Indian Tribe (Mendocino County), Tule River Indian Tribe (Tulare County), Yocha Dehe Wintun Nation (Yolo County), and Yurok Tribe (Humboldt County).
- 12 Special Districts: Carpinteria Valley Water District (Santa Barbara County), Goleta Water District (Santa Barbara County), Groveland Community Services District (Tuolumne County), Lake Don Pedro Community Services District (Mariposa Stanislaus County), Mariposa Public Utility District (Mariposa County), Meiners Oaks Water District (Ventura County), Montecito Water District (Santa Barbara County), Mountain House Community Service District (San Joaquin County), Nevada Irrigation District (Nevada County), Placer County Water Agency (Placer County), Tuolumne Utilities District (Tuolumne County), and Twain Harte Community Services District (Tuolumne County).

### **(PER-304) Social Media for Natural Disaster Response and Recovery**

This course focuses on the use of social media in disaster preparedness, response, and recovery. Social media has shown to help people communicate and collaborate about events as the events unfold. Social media can provide rapid and immediate real-time information about events that helps provide greater situational awareness leading to better decision making. Participants are provided with the knowledge and skills to integrate social media into their current communication plans. The course defines social media and its uses and identifies the tools, methods, and models to properly make use of social media in the context of disaster management and provides the information and hands-on experience necessary to help the participants' create social media disaster plans.
